

Common Dental Emergencies

- **Toothache:** Rinse your mouth with warm water and use dental floss to remove any debris. If pain persists, contact us.
- **Knocked-out tooth:** Keep the tooth moist and try to place it back in the socket. If not possible, put it in milk and call us immediately.
- **Broken tooth:** Rinse your mouth and save any pieces. Apply a cold compress to reduce swelling and contact us.
- **Lost filling or crown:** Keep the area clean and avoid chewing on that side. Call us for a prompt appointment.
- **Abscess:** This is a serious infection. Rinse with salt water and contact us immediately.

For any dental emergency, call our office at (555) 123-4567 for immediate assistance.
